

ABEMACICLIB (in total 19 kinases, 12 active kinases)

AXITINIB (in total 18 kinases, 7 active kinases)

BASATINIB (in total 17 kinases, 3 active kinases)

BOSUTINIB (in total 53 kinases, 21 active kinases)

CRIZOTINIB (in total 44 kinases, 12 active kinases)

DABRAFENIB (in total 13 kinases, 3 active kinases)

DASATINIB (in total 27 kinases, 15 active kinases)

ENTRECTINIB (in total 17 kinases, 5 active kinases)

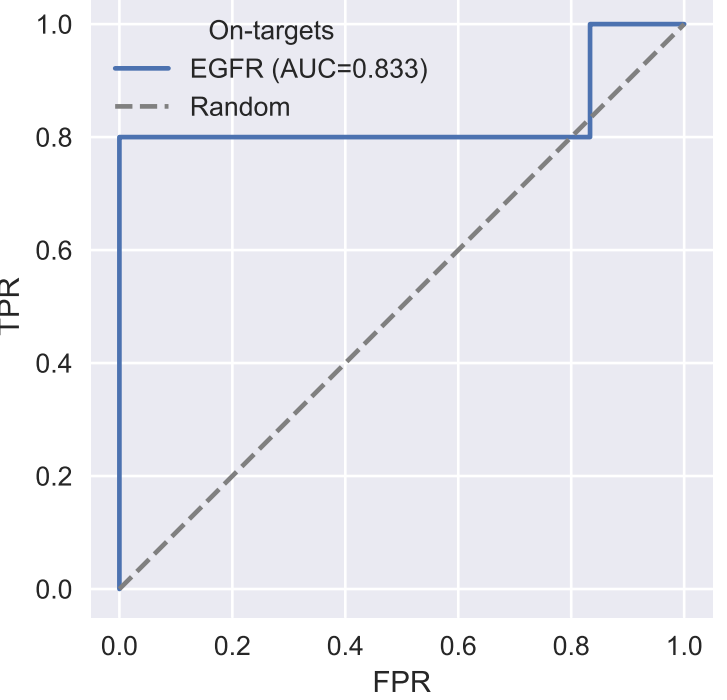

ERLOTINIB (in total 16 kinases, 5 active kinases)

FEDRATINIB (in total 53 kinases, 13 active kinases)

GEFITINIB (in total 17 kinases, 5 active kinases)

GILTERITINIB (in total 31 kinases, 12 active kinases)

IMATINIB (in total 6 kinases, 5 active kinases)

LENVATINIB (in total 8 kinases, 4 active kinases)

NERATINIB (in total 21 kinases, 6 active kinases)

NILOTINIB (in total 13 kinases, 6 active kinases)

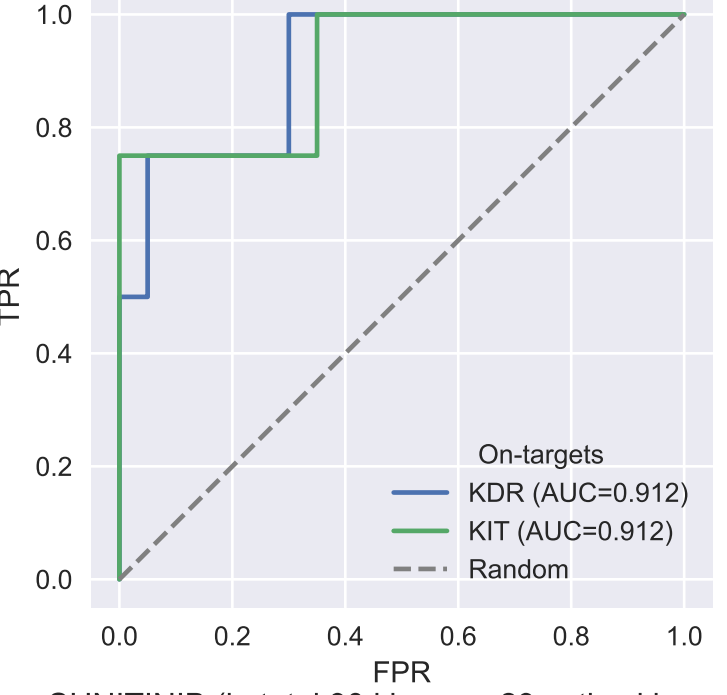

NINTEDANIB (in total 53 kinases, 21 active kinases)

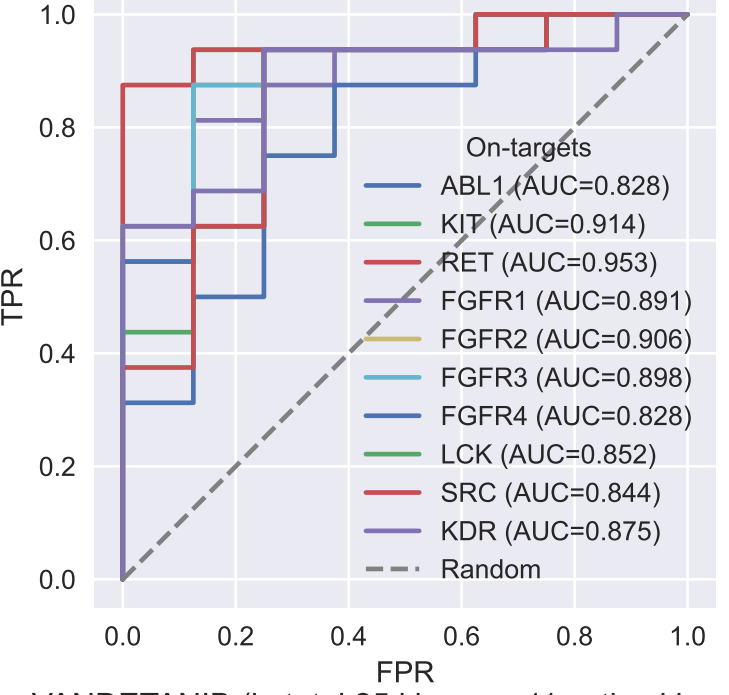

PALBOCICLIB (in total 11 kinases, 4 active kinases)

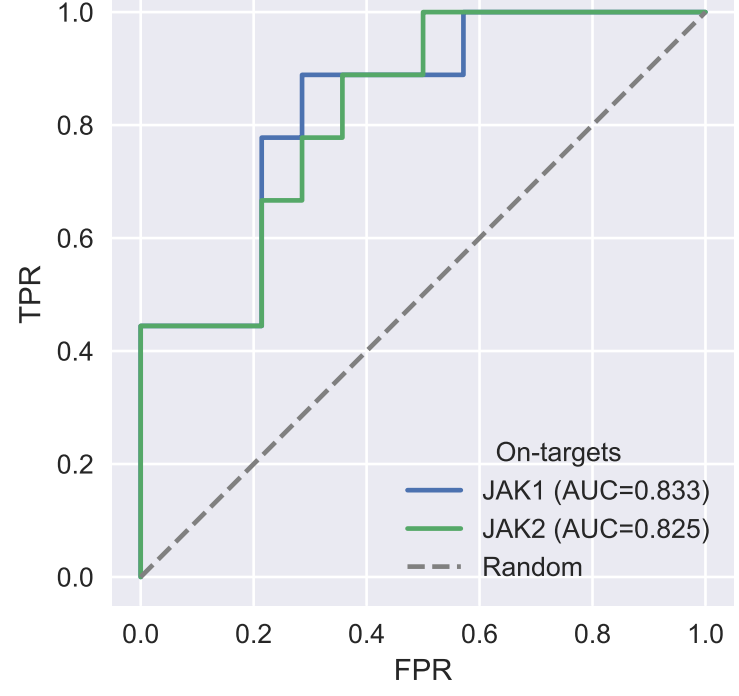

PAZOPANIB (in total 24 kinases, 4 active kinases)

PONATINIB (in total 24 kinases, 16 active kinases)

RUXOLITINIB (in total 23 kinases, 9 active kinases)

SORAFENIB (in total 17 kinases, 7 active kinases)

SUNITINIB (in total 90 kinases, 29 active kinases)

VANDETANIB (in total 25 kinases, 11 active kinases)
